FULL KIT: Receiver Box, Floor Mat & Transmitter: MED-NC-FM03K-WT

Indigo Care provides a smart Australian designed 2-Fold Premium WIRELESS Floor Mat. The chord-less floor mat purposely designed for easier storage and trip-hazard free. It's also backward compatible with most nurse call systems.

The transmitter is an exclusive ID encoded RF Transmitter which communicates with the Wireless Receiver Box (RRU). It allows the Floor mat to wirelessly transmit an alarm to the call point. Simply connect the Transmitter to the floor sensor mat. Then teach in the Transmitter to RRU by following the instructions printed. The sensor mat will now trigger the call point when activated within the transmitting area. It is easily integrated to most nurse call systems. (Note: Transmitter and Floor Mat can be ordered separately).
