PRODUCT CODE: MED-NC-TS0893

Indigo Care provides the Voice Alert Monitor that is designed to be used in conjunction with our floor mats and bed mats/pads. This is a multi-function fall management alarm which can be used as a monitor with magnetic switch, floor sensor mat and bed/chair sensor mat. There is the choice of voice or four different alarm tones which will sound when a resident leaves their bed/chair or steps on the floor mat or when the magnetic switch is detached (when magnetic switch is in use). Record your own alert message or instructions in a voice familiar to the resident that will play in conjunction with the alarm. The monitor can connect and alarm through your current nurse call system. There are two alarm sounds & a Low or High Volume setting. Alternatively, this alarm sound can be put on silent mode and used with your nurse call system.
